Calls are charged at the basic rate, please check with your telephone service provider for exact charges

Your new appliance comes with our **12-month guarantee**, protecting you against electrical and mechanical breakdown. To register, please complete the registration form included, register online or by phone. For full terms & conditions of the manufacturer’s guarantee, please refer to the website above. In addition, you may wish to purchase an extended warranty. A leaflet explaining how to do this is included with your appliance.

Our policy is one of constant development and improvement, therefore we cannot guarantee the strict accuracy of all of our illustrations and specifications. Changes may have been made subsequent to publishing.
Thank you for buying this British-built appliance from us.

This user guide book is designed to help you through each step of owning your new product.

Please read it carefully before you start using your appliance, as we have endeavored to answer as many questions as possible, and provide you with as much support as we can.

General information, spares and service information is available from our website.

If you should find something missing from your product or have any questions that are not covered in this user guide, please contact us (see contact information inside the front cover).

**European Directives**
As a producer and a supplier of cooking appliances we are committed to the protection of the environment and are in the compliance with the WEEE directive. All our electric products are labelled accordingly with the crossed out wheeled bin symbol. This indicates, for disposal purposes at end of life, that these products must be taken to a recognized collection points, such as local authority sites/local recycling centres.

This appliance Complies with European Community Directives (CE) for household and similar electrical appliances and Gas appliances where applicable.

This appliance conforms to European Directive regarding Eco design requirements for energy-related products. Our policy is one of constant development and improvement, therefore we cannot guarantee the strict accuracy of all of our illustrations and specifications - changes may have been made subsequent to publishing.

**Disposal of Packaging Material**
The packaging materials used with this appliance can be recycled. Please dispose of the packaging materials in the appropriate container at your local waste disposal facilities.

---

**UK ONLY GAS WARNING:**
If you smell gas, Do not try to light any appliance. Do not touch any electrical switch.
Call the Gas Emergency Help line at 0800 111999
WARNING

• During use the appliance becomes hot. Care should be taken to avoid touching heating elements.
• The appliance and its accessible parts become hot during use. Care should be taken to avoid touching heating elements. Children less than 8 years of age shall be kept away unless continuously supervised. This appliance can be used by children aged from 8 years and above and persons with reduced physical sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning the use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
• Do not use harsh abrasive cleaners or sharp metal scrapers to clean the oven door glass since they can scratch the surface, which may result in shattering of the glass.
• Do not use a steam cleaner on any cooking range, hob or oven appliance.
• If your appliance is fitted with a lid, any spillage should be removed from the lid before opening. The hob surface should be allowed to cool before closing the lid.
• Ensure that the appliance is switched off before replacing the lamp to avoid electric shock.
• The appliance is not intended to be operated by means of an external timer or separate control system.
• Unattended cooking on a hob with fat or oil can be dangerous and may result in fire.
• NEVER try to extinguish a fire with water, but switch off the appliance and then cover the flame with a lid or damp cloth.
• Danger of fire: Do not store items on the cooking surfaces.
• Only use hob guards designed by the manufacturer of the cooking appliance or indicated by the manufacturer of the appliance in the instructions for use as suitable or hob guards incorporated in the appliance. The use of inappropriate hob guards can cause accidents.
• Accessible parts may become hot when the grill is in use. Children
should be kept away.

**CAUTION**

- This appliance must not be installed behind a decorative door in order to avoid overheating.
- The cooking process has to be supervised. A short term cooking process has to be supervised continuously.
- The use of a gas cooking appliance results in the production of heat, moisture and products of combustion in the room in which it is installed. Ensure that the kitchen is well ventilated especially when the appliance is in use: keep natural ventilation holes open or install a mechanical ventilation device (mechanical extractor hood). Prolonged intensive use of the appliance may call for additional ventilation, for example opening of a window, or more effective ventilation, for example increasing the level of mechanical ventilation where present.
- This appliance is for cooking purposes only. It must not be used for other purposes, for example room heating.
- (Gas through glass models only) In case of hotplate glass breakage, immediately shut off all burners and any electrical heating element and isolate the appliance from the power supply, do not touch the appliance surface, do not use the appliance.

**Fire Safety Advice**

If you do have a fire in the kitchen, don’t take any risks - get everyone out of your home and call the Fire Brigade.

**If you have an electrical fire in the kitchen and you consider it safe to do so:**

- Pull the plug out, or switch off the power at the fuse box - this may be enough to stop the fire immediately
- Smother the fire with a fire blanket, or use a dry powder or carbon dioxide extinguisher
- Remember: never use water on an electrical or cooking oil fire

**Other Safety Advice**

- Servicing should be carried out only by authorised personnel.
- Do not operate the appliance without the glass panel correctly fitted.
- There is a risk of electric shock, so always make sure you have turned off and unplugged your appliance before starting. Always allow the product to cool down before you change a bulb.
- Do not modify the outer panels of this appliance in any way.
- This appliance must be earthed.
- The appliance must never be disconnected from the mains supply during use, as this will seriously affect the safety and performance, particularly in relation to surface temperatures becoming hot and gas operated parts not working efficiently. The cooling fan (if fitted) is designed to run on after the control knob has been switched off.
- **GAS WARNING!** - If you smell gas: Do not try to light any appliance, Do not touch any electrical switch. Contact your local gas supplier immediately.
Getting to know your product

Note: Your appliance layout may differ depending on the model.

**Hob**

- **Medium**
  - Left hand rear
- **Medium**
  - Right hand rear
- **Small**
  - Left hand front
- **Large**
  - Right hand front

**Control Panel**

- Cook zones
- Ignition
- Oven/Grill
- OFF
- Grill
- Hob and Oven controls
To switch the oven on

We recommend to preheat the oven for 10 minutes.

Manual ignition

A lighted match or taper to the burner can also be used when attempting to ignite the oven.

Hold the control knob in for up to 15 seconds then release.

If the burner fails to ignite within this time, release the control knob and wait 1 minute before attempting to re-ignite.

Hob

Burner caps and heads position

Pan sizes required

<table>
<thead>
<tr>
<th>Cook Zones</th>
<th>Minimum Pan Sizes (mm)</th>
<th>Maximum Pan Sizes (mm)</th>
</tr>
</thead>
<tbody>
<tr>
<td>All cook zones</td>
<td>100</td>
<td>250</td>
</tr>
</tbody>
</table>

Select a suitably sized pan for the appropriate burner.

Warning: Do not allow cooking vessels to overlap cooking zones
**Pan placement**

Always make sure that your pans are placed centrally on the burners and do not allow the flame to extend over the base of the pan.

**To switch the grill on**

THE DOOR MUST BE OPEN WHEN THE GRILL IS USED FOR CONVENTIONAL GRILLING.

We recommend to preheat the grill for 3 minutes.

**Manual ignition**

Hold the control knob in for up to 15 seconds then release.

Once lit, turn the control knob to the required setting.

If the burner fails to ignite within this time, release the control knob and wait 1 minute before attempting to re-ignite.

**Note:** Never operate the grill between the large flame and the ‘OFF’ position.

**600 DISC model**

**Note:** Do not operate the grill between the grill symbol and the ‘OFF’ position.

When the oven/grill is switched on, the cooling fan comes on to keep the fascia and control knobs
cool during cooking/grilling. The fan may continue to operate for a period after the oven/grill has been switched off. During use the fan may cycle on and off, this is normal.

**Grill pan, trivet and detachable grill pan handle**

The grill trivet, inside the grill pan, can be inverted to give a high or low position, or it may be removed. The speed of grilling can be controlled by selecting a higher or lower shelf position.

**Removing Shelf Runners**

Telescopic positions (if fitted)
Standard shelves

Additional Features

Fold Down Lid (if fitted)

Caution: Glass lids may shatter when heated. Turn off all the burners before shutting the lid.

- The lid must be opened fully, so there is no danger of it closing while the hob is being used.
- The appliance is fitted with a safety system, which will automatically turn off the hotplate burners if they are inadvertently left on as the lid is closed.
- The lid is not intended to be used as a work surface, as it becomes hot when any part of the cooker is in use. The surface may be scratched if items with rough or sharp surfaces are placed on it.
- Always allow the hob surface to cool before closing the lid.
CLEANING YOUR APPLIANCE

Do’s

Note: Always switch off your appliance and allow it to cool down before you clean any part of it.

Note: Please take extra care when cleaning over the symbols on the control panel, as this can lead to them fading.

Tips: Some foods can mark or damage the metal or paint work e.g.; Vinegar, fruit juices and salt. Always clean food spillages as soon as possible.

Dont’s

IT IS IMPORTANT TO CLEAN YOUR APPLIANCE REGULARLY AS A BUILD UP OF FAT CAN AFFECT IT’S PERFORMANCE OR DAMAGE IT AND MAY INVALIDATE YOUR GUARANTEE.

IN ADDITION TO THE ABOVE, DO NOT USE METAL SCRAPERS TO CLEAN THE OVEN DOOR GLASS.

We offer a great range of cleaning products and accessories for your appliance. To shop, please visit our website located at the front of this User Guide.
